EPTechnologies Sønderborg,
CAD designer and workshop helper

EPTechnologies
Energy Power Technologies

From September 2023 - now

I work as a student employee at EPTechnologies in Sønderborg. My responsibilities include working on CAD projects using SolidWorks and contributing to the workshop, where I have enhanced my skills in battery testing and assembly.

EDUCATION

University of Southern Denmark, Sønderborg

5TH SEMESTER

BACHELOR OF ENGINEERING IN MECHATRONICS 2022-2026

MOST IMPORTANT COURSES

Semester Projects
Embedded Systems (1 & 2)
Mechanical Design
Electronics (1 & 2)
Control systems and Machine Learning

SKILLS

Coding in C and C++	<div><div></div></div> 74%
CAD modeling (Siemens NX, SolidWorks)	<div><div></div></div> 85%
Electronics skills (Soldering, Circuits creating)	<div><div></div></div> 80%

Additional skills

Sound engineering
Social Media - video editing
Knowledge of Microsoft Office

I am a fifth-semester mechatronics student curious to explore, practice, and gain experience. Since I came to Denmark I got important interpersonal skills while working as a waiter in Torve - Hallen in Sønderborg. My current job helps me develop useful engineering skills by working in the workshop and creating commissioned CAD projects.
